

PowerTubs™ Farm-Stock provides a nutrient-dense, convenient way to feed calves. They combine natural protein, fat, digestible fiber and vitamins that can optimize rumen performance. Feeding PowerTubs™ Farm-Stock to grazing calves can improve weight gain and reduce the burden on cows during late lactation, allowing farmers and ranchers to reap the benefits.

FEED YOUR HERD WITH A SUPERIOR QUALITY PRODUCT

- DDGS are rich in protein, fat, minerals, and vitamins
- Delivers performance equivalent to cubes or pellets

EXPERIENCE CONVENIENT FEEDING

- 200 lbs of compressed distillers grains allows for little to zero loss of feed when fed to cattle on pasture or range systems
- Pressed to an optimal hardness designed for controlled consumption for smaller animals such as grazing calves

GIVE YOUR CATTLE EXACTLY WHAT THEY NEED

- 27% crude protein with 6% crude fat for beneficial nutrition
- Meets 8% dietary crude protein necessary for cow maintenance

NATURALLY PROTECT YOUR HERD HEALTH

- Infused with garlic which has shown to help protect cattle from parasites like flies, ticks, lice, and flatworms
- Contains yucca, which research has shown can promote healthier rumen conditions and help reduce environmental impact

SUPPORT YOUR HERD'S PRODUCTION CYCLE

- Helps to overcome drought conditions and support maintenance of calf health when cows may experience the stress of milk production
- Improve herd longevity with additional crude protein and energy for proper development of bulls and heifers

PROTEIN & MINERAL SUPPLEMENT

For All Classes Of Beef Cattle

TYPICAL ANALYSIS

Crude Protein	(Min)	27.0%
Crude Fat	(Min)	6.0%
Crude Fiber	(Max)	12.0%
Calcium	(Min)	0.55%
Calcium	(Max)	1.0%
Phosphorus	(Min)	0.70%
Potassium	(Min)	0.70%
Vitamin A	(Min)	20,000 IU/lb

FEEDING DIRECTIONS

Feed PowerTubs™ Farm-Stock free-choice to beef cattle on all types of roughages. Feed one tub per 20 head of cattle. Cattle should consume approximately 1 to 3 pounds per head per day. If animals consume more or less than the desired amount, reposition the tubs to achieve the proper consumption. Factors affecting consumption are variations in forage quality and availability of such forages. After initial adjustment period of 7 to 10 days from tub introduction, average consumption will be 1 to 3 pounds per head per day. Additional free-choice mineral should be fed along with PowerTubs™ Farm-Stock.

TUB HARDNESS LEVEL

PowerTubs™ Farm-Stock DDGS Tubs

Available in 200 lb tubs.

This feed is produced in a facility certified in the American Feed Industry Association's Safe Feed/Safe Food Certification Program. For details, go to: www.safefeedsafefood.org
