

PowerDeer™ pellets provide a convenient, nutrient-dense way to deliver distillers grains (DDGS) to free-range and penned deer. The products are packed with a blend of minerals including zinc, phosphorus and calcium that can optimize rumen health, performance, and support larger antler growth.

PowerDeer™ pellets come prepared with garlic flavor, which is highly palatable to deer, ensuring attraction and consumption year-round.

DISCOVER DISTILLERS GRAINS (DDGS) PELLETS

- DDGS are rich in protein, fat, minerals, and vitamins, and provide more energy than whole corn
- The ¼ inch pelleted product is small for flowability through feeders, and makes for easy consumption by deer
- The structural integrity of pellets is maintained even in the heat of summer

FOR HOOVES, ANTLERS AND OVERALL HEALTH

- High levels of phosphorous and calcium support stronger antlers
- Additional zinc sustains a healthy lifecycle
- 20% protein content supports strong rack growth

MULTI-BENEFIT GARLIC FLAVOR

- The high palatability of garlic flavor supports consistent consumption
- Garlic flavoring may act as a natural insect repellent
